

MIDTRONICS

**CHARGE
XPRESS™**
Professional Charger Series

NASCAR Officially Licensed Battery Chargers - Only from Midtronics

Professional Wheel Chargers Line Features:

- Professional quality and durability
- Two-hour timer with hold position for continuous charging application
- Rugged professional quality handle
- Heavy-duty cable set is grounded, oil resistant, and built to last
- High efficiency all-copper transformer windings
- Professional automatic reset overload and short-circuit protection
- Two-year limited warranty
- Temperature-control fan cooling system
- Heavy-duty silicon rectifiers with high-performance heat sink aluminum

**CXC-7500
Heavy-Duty Battery
Charger and Starter**

**The perfect match for
fleet applications**

- For charging 6/12 & 24 volt batteries/battery systems
- 15 amp slow charge
- 30 amp regular charge
- 60 amp fast charge
- 200 amp engine start
- Voltmeter for testing battery state of charge and alternator output
- 8" rubber wheels

**CXC-7300
Professional Charger,
Starter, and Battery Tester**

**The premier professional
wheel charger**

- For charging 6 & 12 volt batteries
- 60 amp fast charge
- 10 amp charge
- 80 amp boost
- 250 amp engine start
- Ammeter
- Voltmeter for testing battery state of charge and alternator output
- 8" rubber wheels

**CXC-7200
Professional Battery
Charger and Starter**

**The professional's choice
for most charging
applications**

- For charging 6 & 12 volt batteries
- 2 amp trickle charge
- 10 amp regular charge
- 40 amp fast charge
- 80 amp boost
- 225 amp engine start
- Ammeter
- 8" rubber wheels

**CXC-7100
Economy Battery
Charger/Starter**

**Professional charging at
an economy price**

- For charging 12 volt batteries
- 2 amp trickle charge
- 40 amp fast charge
- 60 amp boost
- 200 amp engine start
- Ammeter

CXC-2215

**6/12 volt 12/2/75 Amp
Fully Automatic Battery Charger**

Our most versatile charger

- Specially designed for multiple vehicle applications including recreation, car, truck, RV and marine
- 75 amp cranking assist for jump starting discharged batteries
- Multiple charging rates (6/12 volt; 12 & 2 amp) for charging all battery sizes
- Dual charging algorithms; starting batteries or deep cycle/gel batteries
- State of charge meter and LED indicator shows charging progress and tells you when charge is complete
- Fully automatic: Charging stops when complete so you won't overcharge or damage the battery
- Safe to use: Charger will not charge if connected backward
- Rugged thermoplastic case protects your vehicle from scratches and enhances safety
- Portable design makes it easy to take the charger to the vehicle
- Includes manual setting for charging batteries discharged below 3 volts
- 2-year limited warranty

CXC-2205

**12 volt 10/2/55 Amp
Fully Automatic Battery Charger**

- Specially designed for multiple vehicle applications including recreation, car, truck, RV and marine
- 55 Amp cranking assist for jump starting discharged batteries
- Dual charging rate (10 amp & 2 amp) for charging all battery sizes
- Dual charging algorithms; starting batteries or deep cycle/gel batteries
- LED state of charge indicator tells you when charge is complete
- Fully automatic: Charging stops when complete so you won't overcharge or damage the battery
- Safe to use: Charger will not charge if connected backward
- Rugged thermoplastic case protects your vehicle from scratches and enhances safety
- Portable design makes it easy to take the charger to the vehicle
- 2-year limited warranty

LARGE VEHICLES/SUVS

CXC-2105

12 Volt 10 Amp Fully Automatic Battery Charger

- Fully automatic: Charging stops when complete so you won't overcharge or damage the battery
- LED state of charge indicator tells you when charge is complete
- Portable design makes it easy to take the charger to the vehicle
- Safe to use: Charger will not charge if connected backward
- Rugged thermoplastic case protects your vehicle from scratches and enhances safety
- 2-year limited warranty

CXC-2100

6/12 volt 10 Amp Manual Battery Charger

- Easy to read state of charge meter
- Automatic overload protection
- Rugged thermoplastic case protects your vehicle from scratches and enhances safety
- Portable design makes it easy to take the charger to the vehicle
- 2-year limited warranty

CXC-2005
12 Volt 6 Amp
Fully Automatic Battery Charger

- Fully automatic: charging stops when complete so you won't overcharge or damage the battery
- LED state of charge indicator tells you when charge is complete
- Safe to use: Charger will not charge if connected backward
- Automatic overload protection
- Rugged thermoplastic case protects your vehicle from scratches and enhances safety
- Portable design makes it easy to take the charger to the vehicle
- 2-year limited warranty

CXC-2000
12 Volt 6/2 Amp
Manual Battery Charger

- Easy to read state of charge meter
- Automatic overload protection
- Rugged thermoplastic case protects your vehicle from scratches and enhances safety
- Portable design makes it easy to take the charger to the vehicle
- 2-year limited warranty

STORAGE AND COLD WEATHER MAINTENANCE

CXC-1005
1.5A Automatic Trickle Charger

- Shuts down when battery is fully charged
- Automatically powers on when battery needs charge
- LED charging light indicates charge status:
 LED on = charging
 LED off = charged
- Specially designed for vehicles in storage and cold weather maintenance of automotive batteries
- Permanently attachable to battery tray

CXC-1000
1A Manual Trickle Charger

- Charges motorcycle, snowmobile, ATV and garden tractor batteries
- Works as a trickle charger to maintain car and truck batteries
- Automatic circuit breaker
- Heavy-duty construction

MARINE BATTERIES

CXC-5005
12 Volt 10 Amp
Fully Automatic Marine Battery Charger

- Specially designed for marine batteries, including trolling motor batteries
- Dual charging algorithms: Starting batteries or dual purpose/deep cycle/gel batteries
- Fully automatic: charging stops when complete so you won't overcharge or damage the battery
- LED state of charge indicator tells you when charge is complete
- Safe to use: Charger will not charge if connected backward
- Rugged thermoplastic case protects your vehicle from scratches and enhances safety
- Portable design makes it easy to take the charger to the vehicle
- 2-year limited warranty
